

OUR BUSINESS

We provide our clients with custom, strategic visuals that convey their intended message to a specific audience. In a market based on first impressions, we understand the value of your company's image.

OUR MISSION

INITIATE Here at PureNine we are all about Your Business. The key to successful branding lies within the deep understanding of our client's unique selling point.

CREATE We like to think of our services as a creative partnership. At PureNine we work in an "Ego-Free" environment allowing us stay open to your feedback and suggestions. Nobody knows more about your business than you. Through this partnership, we work with you to achieve high quality designs that will intrigue your consumers and give you an "edge" over the competition.

INNOVATE Our talented designers pride their creatives on driving results. The greatest asset to a Design/Creative is timelessness. We strive to provide you with quality creatives that create long-lasting impressions.

OUR GENERAL WEB PROCESS

PHASE 1 The most crucial part in the development process. This is where the bonding begins. Initial kick-off meetings are held to establish communication, gain an understanding of your brand, and grasp the beneficial services it provides. Thoughts and ideas are exchanged and initial design comps are presented. Once direction is approved, the entire visual mock of the site is constructed and presented.

PHASE 2 This is where the transformation takes place. Upon client sign off, the layouts are then given to our production team and converted into a fully functional site.

PHASE 3 Time for you to display your achievements to the world wide web. Once thoroughly tested, your site is launched and submitted to the search engines.

OUR GENERAL PRINT PROCESS

PHASE 1 A verbal relationship is established to internalize the history behind your brand. This provides us with the information needed to design custom collateral that will succeed in conveying your brand's message in future ventures. Initial versions, whether it be black and white logo studies, editorial layouts, advertisements, or print collateral; are established to meet your brands needs.

PHASE 2 During this phase, we work with you in an effort transform first round creatives into a finalized deliverable.

PHASE 3 All completed pieces are prepared and sent to specified vendors/publications for press. Digital copies and "working" files are provided to you upon final payment.

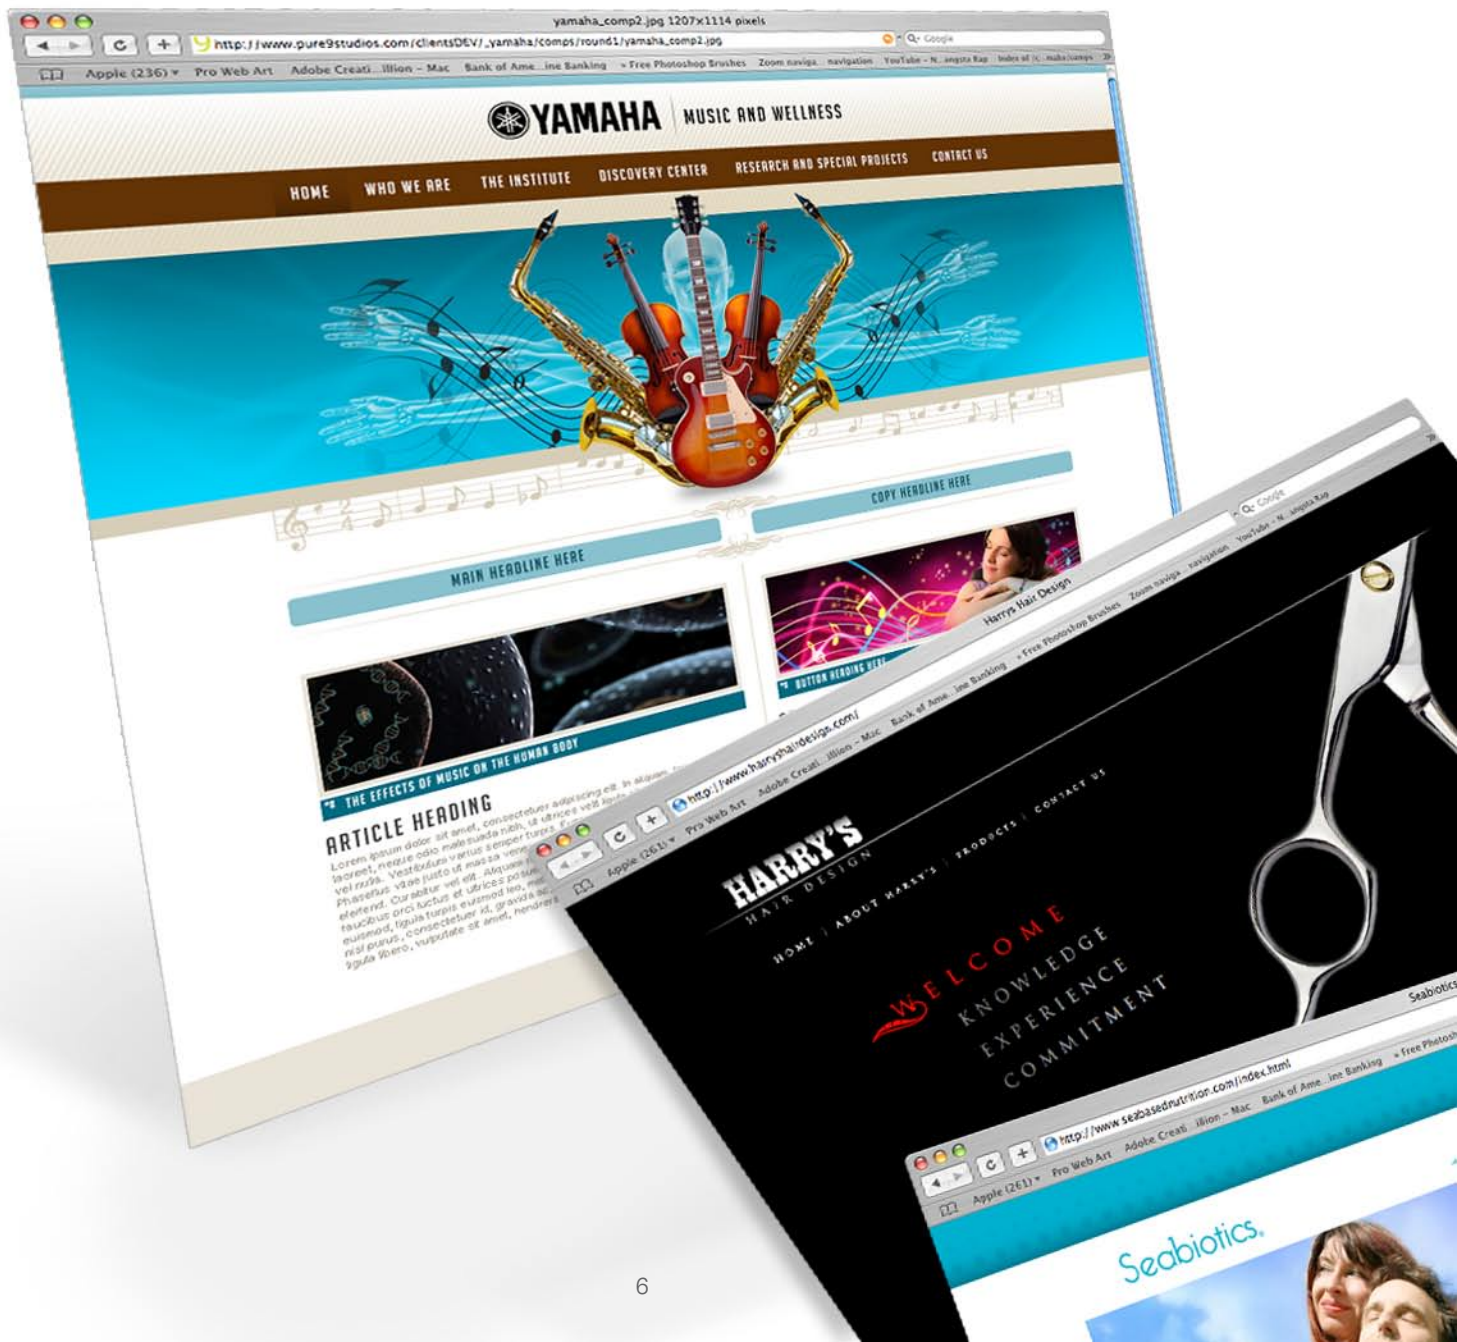

THE ALL-IN-ONE STUDIO
